Subject: RE: State Disposal

I contacted Mr. Travis Brown today regarding the State Disposal Landfill Site.

Mr. Brown was concerned because he feels, among other things, that his drinking water comes from a shallow groundwater source located 30 feet below the State Disposal Landfill. He wanted to know the location of the alternative drinking water source in his area and whether institutional controls were implemented at the Site. I told him that I would look into the matter and contact him next week.

Subject: State Disposal

My Branch Chief was just contacted by a resident in Plainfield, MI regarding the State Disposal Landfill. The resident was wondering about the groundwater sampling that was conducted in 1985 and wondered why the public was never informed about the data. Is there a chance that you could contact Mr. Travis Brown Ex. 6 - Personal Privacy to discuss the site and any groundwater sampling that has occurred?

If not, can you please give me a contact at MDEQ that might be able to help this resident?

Thank you.
